PROFILE

I grew up in California and permanently moved to the UK to have the opportunity of learning at one of the worlds most premier movie production locations, Pinewood Studios. To have the chance of learning at the Iver Makeup Academy has been an incredible experience. I completed the Advance course in Makeup and Hair artistry. I am self motivated and learned a lot about myself having to rising to challenges without immediate family around me to help. I have learnt a lot about Tv and Film makeup, and want to grow as I further my career in this industry. I love makeup, as it's a platform that continuously enables me to innovate and create my artistic capabilities in ways that inspire me and those around me. Being able to combine my talents and work in production is my life's ambition and passion.
